“How to reduce risk through practice and education in school”

Charlotta Nyman

Safety of the Individual Section

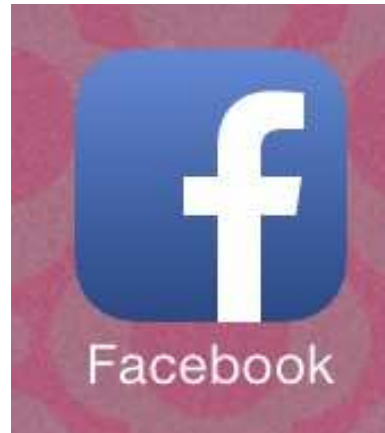

The work of the MSB section – Safety of the Individual

- Risk awareness – important for the preparedness
- Several target groups

Different ways to communicate

- Educational material – school and other educational arenas
- Dinsäkerhet.se (i.e your safety) – website
- Social media

www.youtube.se/msb

Agency

Content and pedagogy

- Children's everyday life's in focus
- Increased knowledge – based on age ability
- Situations and scenarios that children can identify with

Age 4 - 7

“Ellie and Jonas learn about fire”

- Pupil booklet
- Basic knowledge about fire
- Emergency number 112

Swedish Civil
Contingencies
Agency

Age group 6 – 10

“We learn about fire”

- Pupil booklet
- Basic knowledge about fire
- Emergency number 112
- The local fire and rescue service

Age group 9 – 13

“An accident happens so easily”

- Pupil booklet
- Basic knowledge about fire
- Hazard substances
- Ice and water safety
- Emergency number 112
- Arson

Age group 9 - 13

Web-based Information Security Training (ISA)

- On-line interactive training course
- Films, scenarios, quizzes
- Secure information handling and behavior

Age group 12 - 16

“Are you aware?”

- Web published educational material
- The various chapters cover for example:
 - Fire theory
 - Prevention and reacting in the event of fire
 - The emergency number 112
 - Security policy
 - Natural disasters
 - Swedish defence

Example: education about natural disasters

- Why do different types of natural disasters occur?
- How can they be prevented?
- What consequences can the climate change result in?
- How can I, myself, reduce the emission of green house gases?

Example: education about natural disasters

- What does it mean – risk of flood?
- When is there highest risk of flood?
- What consequences can be the result?
- How can flooding be prevented?
- If the water-level rises, for example 2 m – what could be flooded in your community?

Age group 12 - 16

“Blackout”

- Role-play
- Preparedness for a prolonged power cut or blackout
- A trained role-play leader

Age group 16 - 19

www.sakerhetspolitik.se

- Threats and risks to societal security and to peace in the world
- System in place to prevent wars and crises
- Swedish civil protection
- Emergency preparedness systems
- Swedish defense system
- Quiz
